After an absence of nearly seven years, the labors of which have been devoted to the cause of charity and more, which have made her almost an tidol in the neart of the English people, she returns to the scenes of her former triumphs. "Many reasons are assigned for her ren: pearance in public, but we fancy the truth ithat, having been appreciated so fully and suniversally, the admiration alike of palamand cot, she finds private life somewhat of prison, a golden cage from which she would gladly escape. To sing to a public that she delights must be itself delight to such an arri as Jenny Lind. She has been accusatemed to as Jenny Lind. She has been accustomed it from childhood, and such ties are not cast severed. MISCELLANEOUS.

PROSPECTUS OF THE WEEKLY

The undersigned commenced, in the month of December last, the publication, in this city, a weekly newspaper, called the National Republicant.

It is printed on a large sheet, twenty-seven by forty-two inches, and is furnished at the low prices stated below.

It will contain all the original matter of the daily National Republican, with the exception of local news not interesting to country subscribers.

It will give full reports of the proceedings of Congress, and of the other departments of the National Government.

It will contain all the news of the day, foreign and domestic, markets, &c., &c., as well as an original correspondence from all parts of the country. The miscellaneous department will receive special attention, and, in all respects, the effort will be made to establish the character of the National Republican as a Family Newspaner.

Washington being now the central point of the current military operations, great attention will be paid to furnishing the readers of the National Republican with full, and especially with accurate, accounts of the progress of the

war for the Union. In politics, the paper will be Republican, sus taining the Administration of Mr. Lincoln, bu

disclaiming the Administration of Mr. Infection, but disclaiming, however, asy prefension to be the organ of the President.

The is no other Republican paper in the District of Columbia, or in the vicinity of it, and it is believed that recent events have opened to such a paper an important sphere of useful effort. The time has come, when the actual administration of the Government upon Republican principles will explode the misrepresentation of the Government upon Republican principles.

** & PREVENTIVE FOR PEVER AND AGE. HESE SITTERS ARE NOT EQUALLED

I P . TENERLAY, Proprietors, Brains THE OBJECT of all medicine is either to preent disease, or to assist Nature in restoring the various organs of the body to a healthful action, and that medicine is certainly the best which will perform these offices thoroughly yet mildly, and without endangering the vital forces of the system, by whose normal condi-tion alone health and strength can be preserved. Mest of the Bitters that have heretofore been the purpose of temporarily stimulating or exciting the organs into a condition resembling healthful action, without any remedial effect, and generally followed by a return of the dis-ease, or a prostration of a nerveus energy more

disastrous than though Nature had been left to take its own course.

Dr. Groeley's Bitters are a proparation of the outritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonics, and it is a pleasure to the proprietors to state that its usefulness is being generally acknowledged by the largely-increasing consumption in those soctions where it is best known, and by the testimony of many eminent physicians, who nave not only made trial of it, but continual prescribe the Bitters in those cases for which it is

AGED PEOPLE, AND ALL WEAKLY

PERSONS, Consumptive patients, and others, whose con stitutions have become impared by time, or enfeebled by disease, and in whom the process of digostion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the Bitters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred diseases, is the fact that they combine many safe and certain healing properties in connection with the best known stimulant.

DELICATE LADIES

Will derive great benefit from it. No unpleas ant effect will ever result from taking the Bitters, if the directions are followed. For these who suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weak ness, the Bitters are not equalled.

As an agreeable stomachic, it is much ad mired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No attack of FEVER and AGUE, or DIARRHOEA.

Of all the ills that afflict men and women, few are so agonizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to An afternoon private size, exclusively for ladies, and masters, Monday and Friday atternoons at three o'cleck, commencing Friday, the gath of Cetaber.

> Weakness or Debility. This is the gentle hint of nature for a little help in the way of lavig-eration. The hint should not be neglected. "A stitch in time saves nine." Get a supply of GREELEY'S ROUSEGS BUTTERS, take them regularly, and our word for it you will feel better, live nger, he stronger, and think and act with very much more satisfaction. The Bitters are tonic, and of a nature never before attained in any medicine. It will make the weak strong, the desponding hopeful, the sick well. For any complaint of the Stomach, Liver, or Bowels,

there is nothing comparable with this medicine. In America, the Liver is the Grandensed of adthe organs in the body. It is made the saddle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly inoperative. This need not be; on the contrary, it is quite unnecessary. A little common sense, and a sufficiency of GREELEY'S BOURSON Servers, will keep the Liver right, and make man a man, and woman, now miserable, quite happy. The Bitters regulate and strengthen the Liver, no less than purify it.

The thoronac of Koryous Disorders, at the present day, is one of the most alarming indications of the age, or rather, would be, were it not that a most admirable cure had been found. There is not a phase of nervous disease, whatever it may be, that these Bitters will not act upon favorably, and in the most efficient manner. All who are unfortunately afflicted with complaints of this nature, or with indigestion, or any diseases of the Stomach, should not full to make use of Gerriar's Boun BON BITTERS.

Chills and Fever. In many portions of the United States, this terrible disease seizes its victims as naturally as water seeks its level. The system, in a particular condition, invites it. The right medicine to prevest and cure this malady, we unhesitatingly say, is GREELEY'S BOURSON BUTTERS. It breaks up the fever,
